

BRIAN DRAPER

C.E.T., SENIOR ENGINEERING TECHNOLOGIST

Brian has over 30 years of experience providing engineering services for municipal and private sectors, as well as has a vast array of project experience. He has worked in water resources, aggregates, residential, commercial and industrial site developments, as well as department of National Defense and municipal projects.

He designs and drafts engineering drawings, collaborating with fellow staff and clients. He is responsible for installation and maintenance of the engineering computer software and the set up and maintenance of company drawing standards. He coaches engineering staff through the learning curves of CAD design and mentors their engineering skill development. He is the 'go to guy' for the engineering staff for answers on using the cad software.
